

Alloy steel

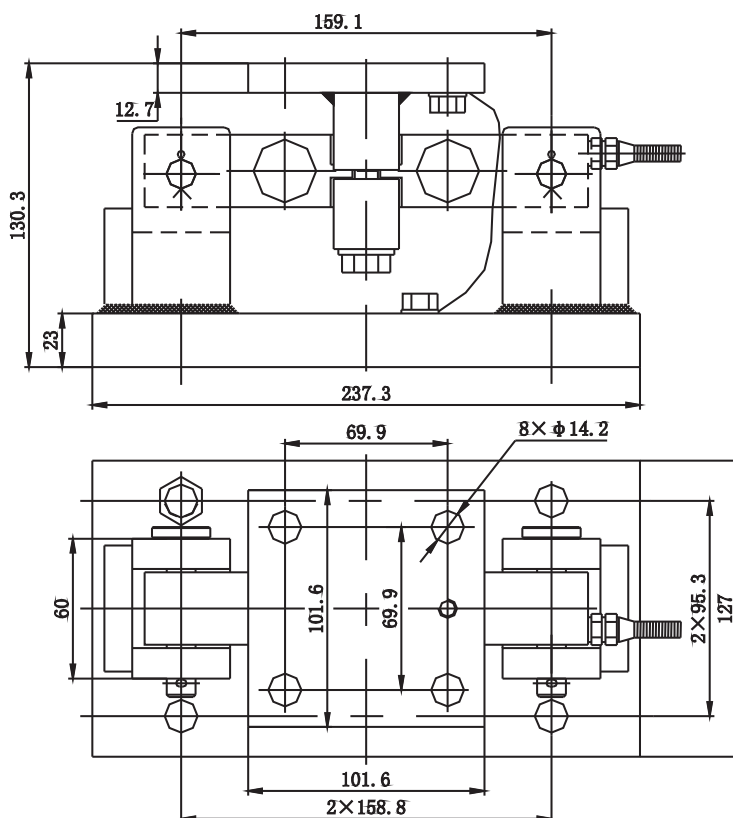

Application:

1. High-capacity tank scale. Bins scale, and hopper scales.
2. Bulk material management.
3. Dry ingredient batching, mixing, and blending.

Introduction:

The DSB-16M mounting module kit is equipped with DSB-16A load cell to provide tank, vessel, and hopper weighing. The DSB-16M is ideally suited for weighing process control operations in the small to high-capacity ranges automatically and properly.

Related Capacity: 1 to 5klb

Related Capacity: 10 to 35kg
